

KETCHIKAN GATEWAY BOROUGH, CITY OF KETCHIKAN, AND CITY OF SAXMAN

EOC COVID-19 UPDATE: THREE NEW CASES

Date: March 30, 2021
 From: Ketchikan Emergency Operations Center (EOC)
 Contact: Kacie Paxton, Public Information Officer, 228-2464

For Immediate Release

There were three cases of COVID-19 reported in Ketchikan today. Two individuals are symptomatic and one is currently asymptomatic. All three cases are part of a congregate setting facility. The contact investigations are complete.

Of the three cases reported yesterday (March 29), one was determined to be close contact to a known positive case, one was determined to be community spread, and one was determined to be part of the same congregate setting facility as today's reported cases.

The total cumulative case count, including travelers, is 399. The number of positive cases of individuals residing or staying in Ketchikan is **381**. Of the 381 cases, there are **6** active, **2** deceased, and **373** recovered.

The Community Risk Level is at Level 1 – Low

Community Risk	Recommended General Mitigation Measures ¹
Level 1 - Low	Minimum: Can travel outside home with safety measures** Schools: Staff 100%, Students 100% with safety measures*** Indoor and Outdoor mass gatherings with safety measures** gatherings >500 people requires coordination with and plan submitted to EOC in advance Businesses open with safety measures** Healthcare services with safety measures** Minimal safe visits to congregate facilities (e.g. nursing homes) Recreation with safety measures**

Current information on the response to COVID-19 in Ketchikan, including additional data regarding Ketchikan's community risk, Berth 3 drive-up testing, airport traveler testing, and local vaccination data, is provided at www.kgbak.us/covid19. The Alaska Health Advisories are available at www.covid19.alaska.gov.

###

¹ *See Detailed Mitigation Measures table for more information. At all levels, individuals should wash hands, cover coughs, wear a mask in public as indicated, stay home if sick, maintain physical distancing, keep surfaces clean. Vulnerable people 60 and older or those with underlying conditions or immunocompromised should minimize travel outside the home.

** Safety measures include appropriate measures to reduce transmission such as reducing occupancy, staggering shifts, working remotely, physical distancing, separating customers from employees, reducing public transportation use, screening employees, working in lower transmission geographic areas, reducing risk to vulnerable groups, keeping places clean with routine cleaning and disinfection, providing necessary supplies and equipment (e.g. sanitizer).
